

Introducing the Vertical Slider from Tayside Windows

All the benefits of a modern PVCu Vertical Sliding Sash Window with all the charm and character of authentic traditional Vertical Sliding Sash Windows.

Designed to provide all the benefits that can be derived from high performance, modern materials, the Vertical Sliding Sash Window provides a long term, cost effective solution for traditional style properties. Advanced technology works in harmony with tradition design, to provide extra comfort and practical features for modern living, without any compromise to character or appearance.

- The PVCu window frames are designed to provide optimum strength, superior thermal properties and excellent weather performance, and will retain their pristine appearance year after year, with minimum maintenance.
- Tilting sashes for ease of cleaning, and tilt restrictions to ensure the tilt mechanism works smoothly and safely.
- Georgian Bar option available.
- Wide choice of colours available including White, Rosewood and Light Oak.
- Optional Decorative Sash horns and optional traditional deep bottom rail.
